

Song Title:
Seven/Eight

Artist:
AFikoMAN

Single

1 2 3 4 5 6 not 7 ya 8. They were looking for the way to shine world went dark in a heavy time. One small find in a broken place everything shifted just changed pace. Didn't see it coming didn't know it'd show one little light made the whole world glow. That's why we celebrate and light all eight cuz the first small find made the story great. The middle of the night ya it starts to shine one small spark changes my mind. Little jugs of oil with a kiss from above little reminders of His certain love. Miracles showing in a simple way Chanukah brings out the light today open up your eyes you'll see em all day.

They were looking for the
way to shine
World went dark in a heavy
time
One small find in a broken
place
Everything shifted just
changed pace

Didn't see it coming didn't
know it'd show
One little light made the
whole world glow
That's why we celebrate and
light all eight
Cuz the first small find made
the story great

The middle of the night ya it
starts to shine
One small spark changes my
mind
Little jugs of oil with a kiss
from above
Little reminders of His
certain love

Miracles showing in a simple
way
Chanukah brings out the
light today

Miracles showing in a
simple way
Open up your eyes you'll
see em all day
