

Song Title:
In The Light

Artist:
Aryeh Kunstler

Single

I've been praying with my soul through this night it's been too long but somehow there'll be light at the end. Through the alleys in the dark and the shadows of my heart waiting for the fire to descend. Shining bright Feel the light and embrace your soul, come and make you whole. וְבָא הַשֶּׁמֶשׁ וְטָהָר וְטָהָר. In the light of the sun we shine stay away from the darkness of night as we pray with the purest of hearts. I've been trying to stay pure in this harsh and crazy world but it ain't always easy to achieve. But with a new day just begun and the rising of the sun radiating lights guiding me.

I've been praying with my soul
Through this night it's been too long
But somehow there'll be light at the end
Through the alleys in the dark
And the shadows of my heart
Waiting for the fire to descend
Shining bright shining bright
Feel the light and embrace your soul
Woah
Shining bright shining bright
Feel the light come and make you whole
וְבָא הַשֶּׁמֶשׁ וְטָהָר וְטָהָר
וְבָא הַשֶּׁמֶשׁ וְטָהָר וְטָהָר
In the light in the light
In the light of the sun we shine
Stay away stay away
Stay away from the darkness of night
In the light in the light
In the light of the sun we shine
As we pray with the purest of hearts
I've been trying to stay pure
In this harsh and crazy world
But it ain't always easy to achieve
But with a new day just begun
And the rising of the sun
Radiating lights guiding me
Shining bright shining bright
Feel the light embrace your soul
Woah
Shining bright shining bright
Feel the light come and make you whole

וְבָא הַשֶּׁמֶשׁ וְטָהָר וְטָהָר
וְבָא הַשֶּׁמֶשׁ וְטָהָר וְטָהָר
In the light in the light
In the light of the sun we shine
Stay away stay away
Stay away from the darkness of night
In the light in the light
In the light of the sun we shine
As we pray with the purest of hearts
וְבָא הַשֶּׁמֶשׁ
וְטָהָר וְטָהָר
(וְבָא הַשֶּׁמֶשׁ וְטָהָר)
וְטָהָר
(וְבָא הַשֶּׁמֶשׁ וְטָהָר)
וְבָא הַשֶּׁמֶשׁ וְבָא הַשֶּׁמֶשׁ
Thank You Hashem
In the light in the light
In the light of the sun we shine
Stay away stay away
Stay away from the darkness of night
In the light in the light
In the light of the sun we shine
As we pray with the purest of hearts
In the light in the light
In the light of the sun we shine
Stay away stay away
Stay away from the darkness of night
In the light in the light
In the light of the sun we shine
As we pray with the purest of hearts
