

Song Title:
In Your Light

Artist:
Yakov Galen

Single

Staring at the closest stranger he's telling me about the places that took parts of his soul. And he's dreaming of a lifetime escaping from this hold searching for his lifeline but it feels like he's letting go. And if only I could fall down get up knowing You control. Then at least I'm breaking into something whole. Talking with this lonely stranger seems like we've always been together but he denies it all. Yeah we're dreaming of a lifetime that seems so familiar and we're searching for the same thing but he's not giving up control. In Your light I'm alive.

#INSTRUMENTAL

Staring at the closest stranger
He's telling me about the places
That took parts of his soul

And he's dreaming
Of a lifetime
Escaping from this hold
Searching for his lifeline
But it feels like he's letting go

And if only I could fall down
Get up knowing You control
Then at least I'm breaking into something
whole

In Your light
I'm alive

In Your light
I'm alive

Talking with this lonely stranger
Seems like we've always been together
But he denies it all

Yeah we're dreaming
Of a lifetime
That seems so familiar
And we're searching for the same thing
But he's not giving up control

And if only I could fall down
Get up knowing You control
Then at least I'm breaking into something
whole

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

If only
I fall down
Knowing you control

At least then I'm breaking into something
whole

In Your light
I'm alive

In Your light
I'm alive

I just wanna fall into
In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light (I just wanna fall into)
I'm alive (I just wanna fall into Your light)

In Your light
I'm alive (I just wanna fall into Your light)
