

Song Title:

Jungle

Artist:

Mendy Worch feat. TYH Boys

Single

It's a jungle out there! I ask myself: What can I do? How will I ever last? If you wanna change the world,
Really wanna change the world. Even from your corner, you can fill the room with light. If you want to
change your world. Live life with the Torah and shine bright. 'Cause you're burning like a flame and there's
no one that can take your spark away. Like a lighter in the dark and it's gonna be a light they can't contain.
We'll shine brighter and brighter until we light the whole world. We can change the whole world. I open
up my window, got so much love to share. Quickly close it up again. 'Cause I don't see no sunlight. And the
real world doesn't seem fair. Maybe I'll stay home today.

It's a jungle out there!
I ask myself: What can I do? How will
I ever last?
If you wanna change the world
Really wanna change the world
Even from your corner, you can fill
the room with light

If you want to change the world
Really want to change your world
Live life with the Torah and shine
bright

Shine bright
'Cause you're burning like a flame
and there's no one that can take your
spark away
Shine bright
Like a lighter in the dark and it's
gonna be a light they can't contain
Shine bright and we'll shine brighter
and brighter until we light the whole
world
We can change the whole world

I open up my window, got so much
love to share
Quickly close it up again, it's a jungle
out there
'Cause I don't see no sunlight
And the real world doesn't seem fair
Maybe I'll stay home today

It's a jungle out there
Shine bright
'Cause you're burning like a flame
and there's no one that can take your
spark away

Shine bright
Like a lighter in the dark and it's
gonna be a light they can't contain
Shine bright and we'll shine brighter
and brighter until we light the whole
world
We can change the whole world
